

## **EMPLOYMENT OPPORTUNITY**

### **Project Manager** (4 Positions)

#### **ROLE & RESPONSIBILITIES:**

This position is tailored to a recent engineering or earth sciences graduate. The successful candidate will report to Senior Technical Professionals and will be responsible for the following areas:

- Provide consulting services in environmental engineering and related disciplines on projects undertaken by Jagger Hims Limited.
- Conduct site investigations to determine geological and groundwater conditions.
- Subsurface assessment, sampling, and testing.
- Environmental site assessments.
- Soil and groundwater sampling for laboratory chemical analyses within the Ministry of the Environment parameters.
- Work closely with senior staff members to develop technical and project management skills.
- Through training and mentoring: preparation of proposals, project organization and administration, responsibility for the implementation and technical accuracy of projects, and for timely completion of projects within the budgetary requirements.
- Other duties as assigned.

#### **QUALIFICATIONS & EXPERIENCE:**

- B.A.Sc. or B.Sc. Geological Engineering, Environmental Engineering, or related discipline.
- The preferred candidate will be self-motivated, energetic and well organized, with a proven ability to multi-task in a fast-paced environment.
- Strong verbal & written skills are required.
- Working knowledge of Microsoft Office products.

#### **SALARY RANGE:**

The successful candidate's starting salary will be determined in accordance with the individual's qualifications and experience.

If you are interested in applying for this position, please respond in writing to Brian Jagger at the Newmarket office, via fax at (905) 853-1759 or to [bjagger@jaggerhims.com](mailto:bjagger@jaggerhims.com) via email.
